EDUCATION

University of Florida
B.S., Computer Science
Minor, Sales Engineering

SKILLS

EXPERIENCE

French Girls: iOS Developer (Swift)

May 2016 - Aug 2017

- ▶ One of eight, wearing many hats and owning the product from day one
- ▶ Responsible for a complete overhaul and modernization of the French Girls iOS app, visually and on a code level
- ▶ Helped guide the company through a complete pivot to a new product, from contributing to the mission and vision to building out initial prototypes
- ▶ Empowering artists to make money doing what they love

Verigo: iOS Developer (Objective-C)

Oct 2013 - Aug 2015

- ▶ Fourth employee at a startup developing supply-chain visualization technology under a SaaS model
- ▶ Developed an application to interface with proprietary sensor devices via Bluetooth 4.0 technology
- ▶ Employed Agile Development and Scrum practices to manage project requirements and drive progress
- ▶ Implemented major UI/UX overhaul in collaboration with external graphic designers

PROJECTS

SplitStreamr: HackIllinois 2016 (Swift, Node.js)

- ▶ Developed a music streaming application that enables distribution of data costs across iOS devices on a mesh network in 36 hours
- ▶ Won Apple's "Best iOS/OSX Hack" prize and Viasat's "Emerging Tech to Connect People" prize

Feeder: HackFSU 2016 (Swift)

- ▶ Built a Twitter client application that allows for simple creation of navigation between custom Tweet feeds in 30 hours
- ▶ Won 2nd Place Overall prize

SurveySays.co: Swampacks 2016 (PHP)

- ▶ Built an Wordpress instance and an automated PHP backend with one team member at Swampacks
- ▶ Leveraged AWS's Mechanical Turk API to provide very low cost usability testing for websites
